July 17 County Informational Meeting:

EPA, WDNR, WDATCP and the Counties attended this meeting. Over 100 citizens attended. A majority expressed an interest in identifying the source of the contamination and expressed

frustration that resources were not being provided for alternative water supplies, including treatment.

Also Wood County has the data and website link which I emailed today. Cheryl Burdett reached out to Juneau Co and they are mulling over whether they want the data and will get back to Cheryl tonight since they will be at the public meeting.

Pat Kuefler called Dr. Jones at CSD but was not able to talk to him directly. Pat left a voicemail with the information and asked Dr. Jones to contact him but as of late morning Pat had not heard from him. ORC reached CSD's attorney and provided the data and the attorney acknowledged receipt of the information.
